

# proRM Fast Start: a cheat sheet

## WHY proRM Fast Start?

proRM Fast Start helps you professionalize your project management in a simple, quick and inexpensive way by seamlessly adding it to your existing sales solution.

## WHO IS IT FOR?

proRM Fast Start is for organizations that wish to digitize their project management processes. Even small and growing organizations can manage projects in this solution.

## HOW DOES IT WORK?

proRM Fast Start is an app for Microsoft Dynamics 365 Sales that is easily installed into the solution. Best news: It is ready to use after no more than two days.

## WHAT'S IN IT?

proRM Fast Start includes the most important project and resource management functionalities – from time bookings to invoices.

## TIME TRACKING

Working time and expenses for project tasks can be recorded with just a few clicks. Time bookings not only show the duration of a task but the exact start and end time as well.

## APPROVAL MANAGER

Submitted tracking entries can easily be checked, edited, approved or rejected. Comparison charts and a tree-view help to stay on top of things at all times.

## PROJECT GANTT

All ongoing and upcoming projects can be tracked and edited in a multi-project and multi-customer view.

## INVOICING MANAGER

With the Invoicing Manager it is easy to create flawless project invoices for your customers.
